ECO FRIENDLY OFFICE
AND STATIONERY PRODUCTS

MADE IN POLAND

Our premium line of modern and eco friendly office products was designed to reduce the use of plastic accessories such as file folders, containers and binders. Felt and leather office accessories allow you to create more comfortable and eco-friendly workplace, regardless the size of your company - they are equally suitable for big corporations and small businesses.

For their production we use recycled felt made of PET fibers and blended leather containing limited amount of glue.

We also eliminated plastic, so as our products meet new ecological EU standards, therefore local governments offices are their main recipients.

Identyfy product's code

To eliminate possible misunderstandings and shorten the production time, please identify your product's code by giving all signatures referring to every category: main body / cover cut-outs / interior / metal hardware / fabric colour / extras. Please note that not all the products will have the code containing of 12 numbers. If the final product does not have any interior, metal hardware or extras, type XX or cross out these fields. If your product has more than one extra, enter their symbols after decimal point.
